Dear Sir/Madam

**RE: WILPINJONG MINE
MODIFICATION APPLICATION**

I am the Managing Director of Expressway Spares Pty Ltd, a private company employing approximately 365 dedicated staff in five branches at Wauchope (NSW), Mackay (QLD), Perth (WA), Gunnedah (NSW) and Mount Thorley, Hunter Valley (NSW).

Our business services heavy earthmoving equipment primarily used in the mining industry.

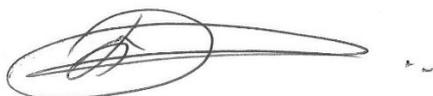

I am writing in strong support of the modification application for the extension of the Wilpinjong mine. This operation is an important customer of our business and as such its ongoing success is an important factor in our own ability to be successful and remain a substantial employer in our sector.

The proposed extension of the operations of the Wilpinjong mine through to 2033 will provide critical ongoing employment for current staff and new staff, will not affect culturally important sites and will ensure substantial community benefit to the Mudgee region and NSW generally by way of local employment, spending, charity initiatives, grants and royalties.

Expressway Spares is not a "multinational" company. Our key assets are our staff and their families, and it is vital that we do what we can to provide security in these uncertain times.

I recommend the proposed extension be approved on the basis that the proposal is fair and balanced and meets all the necessary criteria for such approval, and the economic and social benefits cannot be understated.

Yours faithfully

James Dunn
Managing Director
