

16 November 2025

The Secretary
NSW Department of Planning, Housing and Infrastructure

Attention: David Ansen

SSD-72775222 Demast Sludge Dewatering Plant

Dear Sir or Madam

I refer to the Department's email of 12 November 2025 regarding the Environmental Impact Statement (EIS) for State Significant Development SSD-72775222 Demast Sludge Dewatering Plant. Upgrade for 'Upgrade to an existing Sludge Dewatering Plant to increase the processing capacity from 46,720 tpa of drill mud to 300,000 tpa of sludge, groundwater, GSW soils, VENM and ENM' at 7 Long Street, Smithfield (Lot 1 DP 1273012) in the Cumberland City Council local government area (LGA). Submissions need to be made to the Department by 11 December 2025.

Please refer to Endeavour Energy's submission made to the Department on 3 July 2024 regarding the request for Secretary's Environmental Assessment Requirements (SEARs) for SSD-72775222 Demast Sludge Dewatering Plant. The conditions and advice provided therein essentially remain applicable.

The EIS does not appear to address the easements on the site which also do not appear to be shown on the Site Plan.

Regarding whether electricity services are available and adequate for the proposed development the EIS includes the following advice.

11.8.6 Services

The existing electricity connection will be sufficient to service the increased operations of the SDP and therefore, no additional supply will be needed.

Please find attached for the applicant's reference a copy of Endeavour Energy's Standard Conditions for Development Applications and Planning Proposals, Version 10A, August 2025 which provides some additional and updated information.

For further advice the applicant can call Endeavour Energy via General Enquiries on business days from 9am - 4:30pm on telephone: 133 718 and the following contacts:

- Customer Network Solutions Branch for matters related to the electricity supply or asset removal / relocation who are responsible for managing the conditions of supply with the applicant and their Accredited Service Provider (ASP). Alternatively contact can be made by the [Connect Online](#) page on Endeavour Energy's website.
- Easements Officers for matters related to easement management, protected works or other forms of property tenure / interests. Alternatively contact can be made by email Easements@endeavourenergy.com.au .

All encroachments, activities and / or works (including subdivision and even if not part of the Development Application) whether temporary or permanent within or affecting an easement, restriction, statutory right, right of access or protected works (other than those approved / certified by Endeavour Energy's Customer Network Solutions Branch as part of an enquiry / application for load or asset relocation project) need to be referred to Endeavour Energy's Easements Officers for assessment and possible approval if they meet the minimum safety requirements and controls. However please note that this does not constitute or imply the granting of approval by Endeavour Energy to any or all of the proposed encroachments and / or activities.

For further information please refer to the attached copies of Endeavour Energy's:

- General Restrictions for Overhead Power Lines.
- Guide to Fencing, Retaining Walls and Maintenance Around Padmount Substations.
- Mains Design Instruction MDI 0044 'Easements and Property Tenure Rights' which deals with activities / encroachments within easements.
- Property Branch for matters related to property tenure. Alternatively contact can be made by email network_property@endeavourenergy.com.au (underscore between 'network' and 'property').
- Construction Works Team for safety advice for building or working near electrical assets or street infrastructure in public areas. Alternatively contact can be made by Alternatively contact can be made by the [Connect Online](#) page on Endeavour Energy's website.

Based on and subject to the foregoing Endeavour Energy has no objection to the Development Application. Could you please pass on a copy of this submission to the applicant? Should you wish to discuss this matter, or have any questions, please do not hesitate to contact me or the contacts identified above in relation to the various matters. Due to the high number of development application / planning proposal notifications submitted to Endeavour Energy, to ensure a response contact by email to Property.Development@endeavourenergy.com.au is preferred.

Yours faithfully

Cornelis Duba | Development Application Specialist

Endeavour Energy respectfully acknowledges the Traditional Custodians on whose lands we live, work, and operate and their Elders past and present.

Site Plan from Endeavour Energy's HxGN NetWorks Core NetViewer Master Facility Model. WARNING: Electricity infrastructure shown is indicative only.

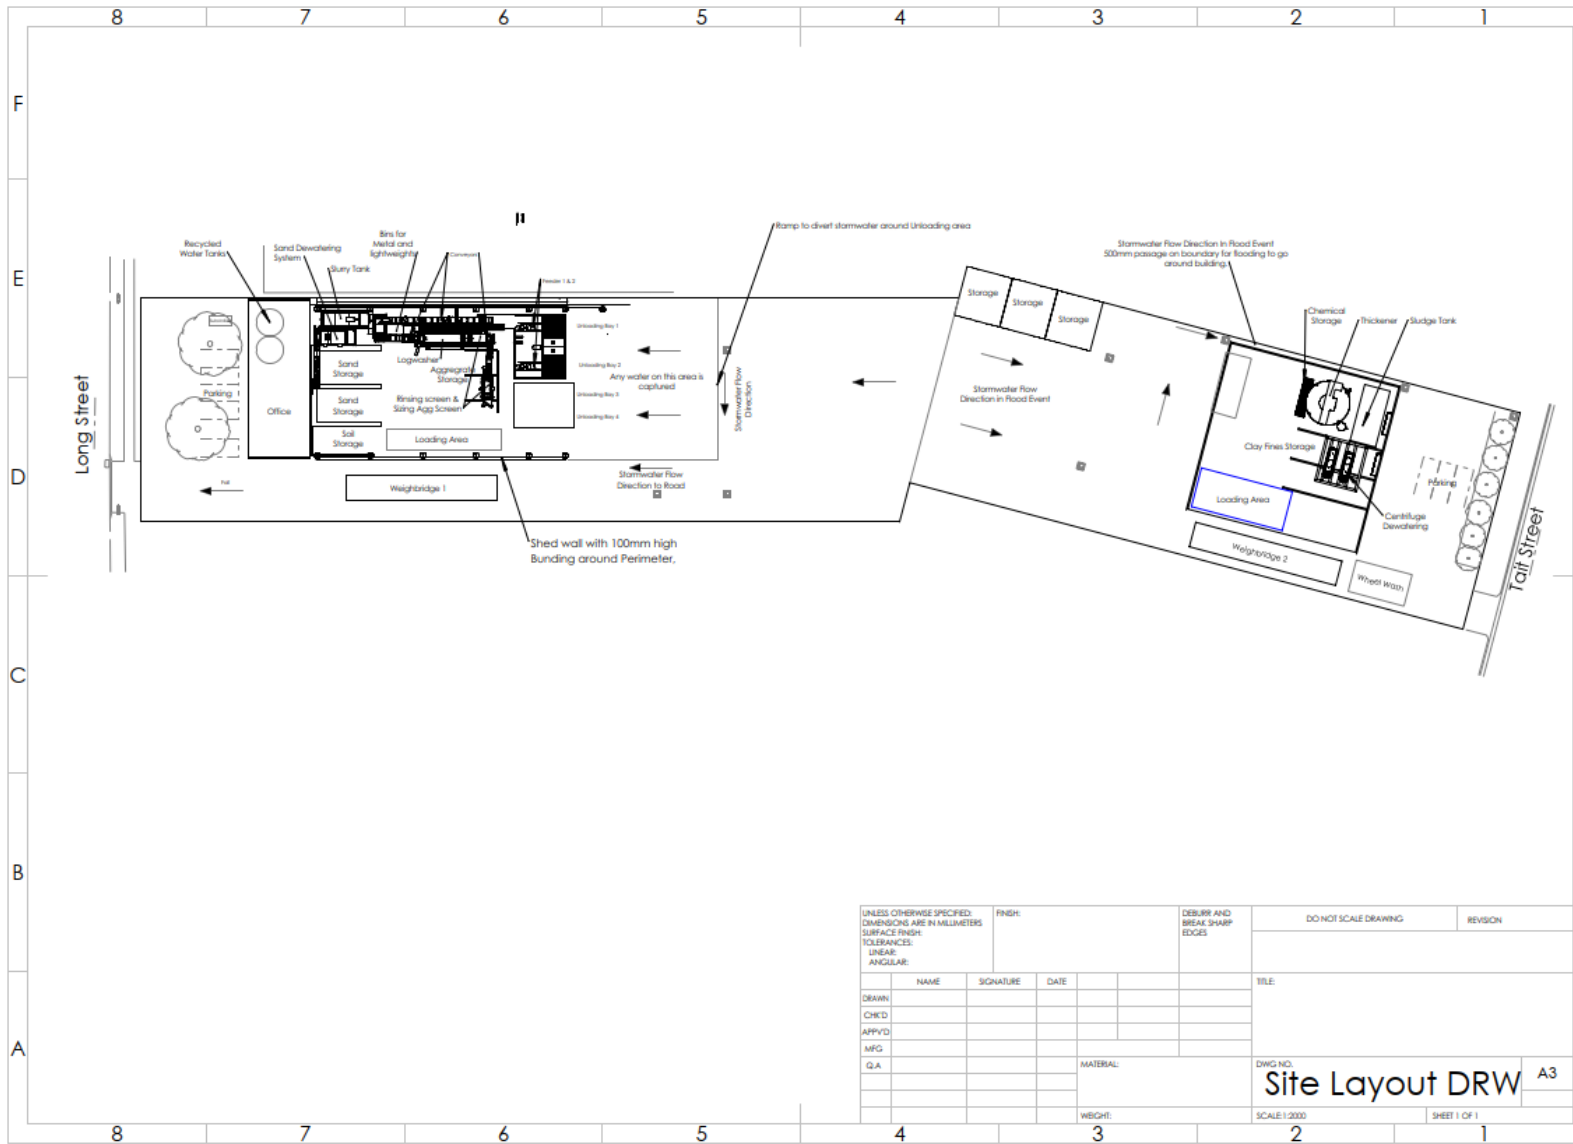

| G3E_FID | Feature Name | Component Name | G3E_CID | G3E_ID | LOT | SECTION | DP |
|----------|--------------|-------------------|---------|---------|-----|---------|---------|
| 83552119 | Crown Parcel | Crown Parcel Find | 1 | 2430510 | 1 | | 1273012 |

Please note the location, extent and type of any electricity infrastructure, boundaries etc. shown on the plan is indicative only. In addition it must be recognised that the electricity network is constantly extended, augmented and modified and there is a delay from the completion and commissioning of these works until their capture in the model. Easements benefitting Endeavour Energy are indicated by red hatching. Generally (depending on the scale and/or features selected), low voltage (normally not exceeding 1,000 volts) is indicated by blue lines and high voltage (normally exceeding 1,000 volts but for Endeavour Energy's network not exceeding 132,000 volts / 132 kV) by red lines (these lines can appear as solid or dashed and where there are multiple lines / cables only the higher voltage may be shown). This plan only shows the Endeavour Energy network and does not show electricity infrastructure belonging to other authorities or customers owned electrical equipment beyond the customer connection point / point of supply to the property. This plan does not constitute the provision of information on underground electricity power lines by network operators under Part 5E 'Protection of underground electricity power lines' of the *Electricity Supply Act 1995* (NSW).
