### 5. Type of modification

An application under section 96 of the EP&A Act is an application to modify a development consent. Modifications to a development consent can also be made under section 75W of the EP&A Act, or section 96AA for court granted consents.

There are five types of modification applications. Please tick the type of modification application that is being sought:

- ☐ Section 96(1) involving minor error, misdescription or miscalculation.
- ☐ Section 96(1A) involving minimal environmental impact, where the development as originally approved remains substantially the same.
- ☐ Section 96(2) other modification, where the development as originally approved remains substantially the same.
- ☐ Section 96AA modification of consent granted by the Land and Environment Court, where the development as originally approved remains substantially the same.
- ☒ Section 75W modification, involving use of Part 3A processes to modify the Part 4 consent.

Note: If the proposed modification will lead to the consented development being not 'substantially the same' (except in the case of a proposed modification under section 75W) then you will need to submit a new development application.

### 6. Extent of modification

Will the modified development be substantially the same as the development that was originally approved?

No ☐ > Please submit a new development application.

Yes ☐ > Please provide evidence that the development will remain substantially the same. (If you need to attach additional pages, please list below the material attached).

Not applicable to the modification application.

Note: Question 6 does not apply to proposed modifications under section 75W.

## 7. Description of modification

- In the case of a section 96(1) application, indicate the nature of the minor error, misdescription or miscalculation in the space below.
- In the case of a section 96(1A), section 96(2) or section 96AA application describe the impact of the modification in the space below. A statement of environmental effects will need to accompany the application, which includes an assessment of the development as proposed to be modified in accordance with section 79C(1) of the EP&A Act. Provisions of the *Heritage Act 1977* may also apply for works to a heritage item or works adjoining a heritage item.
- In the case of a section 75W application under clause 8J(8) of the Environmental Planning and Assessment Regulation 2000, a development consent in force immediately before the commencement of Part 3A of the Act may be modified under section 75W as if the consent were an approval under that Part. However, approval from the Minister is required to lodge a section 75W application. Applicants should contact the Department first if they are considering applying for a modification under section 75W.

Regardless of the type of modification, please state below the specific conditions of consent to be modified, deleted or additional conditions request, and details of any other changes being sought.

The current Elgas Cavern Facility will remain substantially the same as was described in the original Development Application, with the following modifications proposed:

- The installation of new LPG supply pipeline and associated infrastructure from the existing Elgas Cavern Facility to the Qenos Hydrocarbons Terminal via the NSW Ports Charlotte Road Pipeline corridor as detailed in the EA and Appendices.
- Installation of infrastructure required at the tie-in points at the Elgas Cavern Facility and Qenos Hydrocarbons terminal.

The existing development consent boundary would require modification to include the additional areas for the above changes, and to reflect changes in Lot and DP property numbers as a result of subdivisions recently completed by NSW Ports in the Port Botany area. The parcel numbers relating the Cavern Facility approval were previously recorded as Lot 2 and Lot 3 815358.

Note: If your proposal is within Kosciuszko ski resorts area, please attach a copy of the Interim Lease Variation Approval received from the Department of Environment and Climate Change to your application.

## 8. General terms of approval from State agencies

If the original development application was classified as integrated development and required approval from one or more State agencies, list them in the space below and their respective general terms of approval. Depending on the type of modification, it may be necessary to refer the modification application to the approval body.

The original application was not classified as integrated development as the application pre-dates the Protection of the Environment Operations Act 1997 (PoEO Act). However, DA conditions which generally refer to requirements from state agencies relevant to the current PoEO Act are broadly as follows:

- The former Department of Water Resources (Department of Primary Industries - Office of Water): Groundwater report, monitoring and Requirement to attain a Groundwater Licence
- Environmental Protection Authority: Compliance with departmental guidelines for Noise, Vibration, Waste Management, Erosion and Stormwater Control, Groundwater management.

## 9. Number of jobs to be created

Please indicate the number of jobs the proposed development will create. This should be expressed as a proportion of full time jobs over a full year, (e.g. a person employed full time for 6 months would equal 0.5 of a full time equivalent job; six contractors working on and off over 2 weeks equate to 2 people working full time for 2 weeks, which equals approximately 0.08 of an FTE job).

Construction jobs (full time equivalent)	3.2
Operational jobs (full time equivalent)	0

## 10. Application fee

Part 15 of the Environmental Planning and Assessment Regulation 2000 sets out how to calculate the fees for an application for modification of a development consent. If your development needs to be advertised to the public you may also need to include an advertising fee.

Note: Advertising fees attract GST, all other fees do not.

Please contact the Department in order to calculate the fee for your modification application.

Estimated cost of the development	Original application fee	Total fees lodged
AUD\$3,800,000.00	Unknown	AUD\$7,830.00

## 11. Political donation disclosure statement
