

# Notice of Modification

## Section 75W of the *Environmental Planning and Assessment Act 1979*

As delegate of the Minister for Planning, I modify the development consent referred to in Schedule 1, as set out in Schedule 2.

Oliver Holm  
**Executive Director**  
**Resource Assessments and Compliance**

Sydney

2015

---

### SCHEDULE 1

The development consent (DA 305-7-2003) granted by the Minister Assisting the Minister for Infrastructure for Planning (Planning Administration) for the Wambo Coal Mine on 4 February 2004.

---

### SCHEDULE 2

1. In the list of definitions in Schedule 2, delete the definition for "NOW" and insert the following definition in alphabetical order:  

DPI-Water	Department of Primary Industries – Water
-----------	--
2. In item 9 shown in the Table of Contents, delete "Longwall 10A".
3. Delete all references to "NOW" and replace with "DPI-Water".
4. In condition 2 of Schedule 3, delete all words following "dated April 2013;" and replace with:
  - (o) the modification application DA 305-7-2003 MOD 14 and accompanying documents entitled North Wambo Underground Mine Longwall 10A Modification Environmental Assessment - The addition of North Wambo Underground Mine Longwall 10A, dated September 2014, and associated Response to Submissions dated December 2014; and
  - (p) the modification application DA 305-7-2003 MOD 15 and accompanying documents entitled South Bates (Wambo Seam) Underground Mine Modification Environmental Assessment - The addition of South Bates (Wambo Seam) Underground Mine Longwalls 14 to 16, dated August 2015, and associated Response to Submissions dated September 2015.
5. After condition 2 of Schedule 3, insert the following:
  - 2A. The Applicant shall carry out the development in accordance with the:
    - (a) conditions of this consent; and
    - (b) Approved Layout – North Wambo Underground Mine, shown in Appendix 5.

*Note: With the approval of the Secretary, longwall panels may be shortened or narrowed, providing that the proposed variations do not result in increased subsidence impacts or environmental consequences.*
6. In Table 18 of Schedule 4, delete "Doman" and replace with "Domain".
7. In Table 18 of Schedule 4, following the row beginning with the word "Community", insert the following rows:

Landforms	Final landforms are consistent with and complement the topography of the surrounding region to minimise the visual prominence of the final landforms in the post mining landscape
All watercourses subject to subsidence impacts.	Hydraulically and geomorphologically stable, with riparian vegetation established that is the same or better condition than prior to commencement of mining

- APPENDIX 5**  
**APPROVED LAYOUT – NORTH WAMBO UNDERGROUND MINE**
