

Application to Modify a Development Consent

DA Modification Number: 344-11-2001_____

1. Before you lodge

You can use this form to apply to modify a development consent given by the Minister for Planning. If the changes you propose mean the development will not be substantially the same as that originally approved, please do not use this form. You will need to submit a new development application.

Disclosure statement

Persons lodging applications are required to declare reportable political donations (including donations of or more than \$1,000) made in the previous two years. For more details, including a disclosure form, go to www.planning.nsw.gov.au/donations

Lodgement

To minimise delay in receiving a decision about your application, please ensure you submit all relevant information to us. When your application has been assessed, you will receive a notice of determination.

To complete this form, please place a cross in the appropriate boxes and complete all sections.

5. Describe the modification you propose to make

Please indicate the type of modification you propose to make by placing a cross in the appropriate box below.

You need to submit with your application form a full description of the expected impacts of the modifications proposed, including relevant plans, drawings and compliance with relevant controls.

- A modification to correct a minor error, misdescription or miscalculation

Describe the error, misdescription or miscalculation

(Refer to section 96(1) of the *Environmental Planning and Assessment 1979* (EP&A) Act)

[Empty box for description of error, misdescription or miscalculation]

- A modification that will have minimal environmental impact

Describe the modification and its expected impact

(Refer to section 96(1A) of the EP&A Act)

[Empty box for description of modification and its expected impact]

Any other modification

Describe the modification and its expected impact
(Refer to section 96(2) of the EP&A Act)

The application is being made under Section 75W of the EP&A Act, in accordance with the transitional arrangements of the EP&A Act associated with the repeal of Part 3A. The modification involves the regularization of current operations and disturbance to those approved by DA 344-11-2001. Specifically the Proposed Modification includes the following:

- Construction and operation of extended stockpile areas to the west (WSEA) and east (ESEA) of the approved disturbance footprint of the Quarry; and
- Operation of a screening and washing circuit, and associated silt cells, to enable the production of washed aggregate (<7mm) and sand (<5mm) products.

Will the modified development be substantially the same as the development that was originally approved?

No Please submit a new development application.

Yes Please provide evidence that the development will remain substantially the same.
(If you need to attach additional pages, please list below the material attached).

The area, depth or production limit of mining activities will not vary from that approved. The mined quartzite will continue to be crushed and screened to produce a variety of aggregates and other quartzite products. The additional fine aggregate and sand processing operations are simply an extension of the approved crushing and screening operations to enable the production of smaller diameter aggregates and sand products. The extension to the stockpile areas does not represent a new activity, rather an extension of approved activities necessary to provide for the variety of quartzite products produced by crushing and screening activities.

6. Number of jobs to be created

Please indicate the number of jobs this will create. This should be expressed as a proportion of full time jobs over a full year. (e.g. a person employed full-time for 6 months would equal 0.5 of a full-time equivalent job; six contractors working on and off over 2 weeks equate to 2 people working full-time for 2 weeks, which equals approximately 0.08 of an FTE job.)

Construction jobs (full-time equivalent)

7. Application fee

For development that involves a building or other work, the fee for your application is based on the estimated cost of the development.

Clause 258 of the Environmental Planning and Assessment Regulation 2000 and the table attached to that clause set out how to calculate the fee for an application for modification of a consent.

If your development needs to be advertised to the public you may also need to include an advertising fee. Clause 258 of the regulations includes details on these fees.

Note: Contact us if you need help to calculate the fee for your application.
