**Subject:** FW: Tomago Aluminium - Notification of Modification applications DA 391/80 MOD 6 and DA 4980/90 MOD 5  
**Attachments:** Tomago Aluminium production increase - Project Description and SEE.pdf

Hi Robert,

Thank you for providing the opportunity to comment on the proposed modification to the Tomago Aluminium Smelter.

Council staff have reviewed the proposed modification and offer the following comments:

- It is requested that the assessing officer give consideration to the continued safe movement of vehicles and pedestrians on the road network; and
- The proposed modification may have an increased impact on air quality or result in increased levels of air pollution. It is considered that the application should be supported by appropriate information to demonstrate that the development will not cause a significant adverse impact in this regard.

Should you have any questions or wish to discuss the above, please contact me on the details below and I will be happy to help.

Regards,

---

**Subject:** Tomago Aluminium - Notification of Modification applications DA 391/80 MOD 6 and DA 4980/90 MOD 5

**To the General Manager, Mr Wayne Wallis**

Dear Mr Wallis,

The Department has received an application to modify development consents DA 391/80 (Modification 6) and DA 4980/90 (Modification 5), to provide for an increase in production capacity from 580,000 tonnes to 600,000 tonnes. Please find attached the Applicant's Project Description and supporting Statement of Environment Effects.

Could you please provide any comments on the two modification applications via return e-mail to myself by no later than COB 17 October 2016.

Regards,

**Robert Byrne**
