There are five types of modification applications. Please tick the type of modification application that is being sought:

- ☐ Section 96(1A) involving minimal environmental impact, where the development as originally approved remains substantially the same.
- ☐ Section 96(2) other modification, where the development as originally approved remains substantially the same.
- ☐ Section 96AA modification of consent granted by the Land and Environment Court, where the development as originally approved remains substantially the same.

Provisions of the *Heritage Act 1977* may also apply for works to a heritage item or works adjoining a heritage item.
- In the case of a section 75W application under clause 8J(8) of the Environmental Planning and Assessment Regulation 2000, a development consent in force immediately before the commencement of Part 3A of the Act may be modified under section 75W as if the consent were an approval under that Part. However, approval from the Minister is required to lodge a section 75W application. **Applicants should contact the Department first if they are considering applying for a modification under section 75W.**

Regardless of the type of modification, please state below the specific conditions of consent to be modified, deleted or additional conditions request, and details of any other changes being sought.

Consent is sought for the proposed modification to the existing development consent (DA53/97) under Section 75W to facilitate the replacement of a rendering plant on site. The replacement is required as a result of the complete destruction of the existing rendering plant facility due to fire. The replacement rendering plant is proposed to be located adjacent to the existing rendering facility, and to operate in a manner consistent with the previous plant, conditions of approval and Environmental Protection Licence (EPL).
