---

Hi Luisa,

I refer to your request for an Airservices assessment of the Wyong Hospital Expansion development and crane operation at 664 Pacific Hwy, Hamlyn Terrace.

### **Airspace Procedures**

With respect to procedures designed by Airservices in accordance with ICAO PANS-OPS and Document 9905, at the maximum heights of 45.95m (151ft) AHD and 127m (417ft) AHD, the development and the crane operations, respectively, will not affect any sector or circling altitude, nor any instrument approach or departure procedure at Gosford District Hospital.

The development and the crane operations will not affect the Sydney Radar Terrain Clearance Chart (RTCC).

Note that procedures not designed by Airservices at Gosford District Hospital or Lake Macquarie Airport were not considered in this assessment.

### **Communications/Navigation/Surveillance (CNS) Facilities**

The development and crane operation will not adversely impact the performance of Precision/Non-Precision Navigational Aids, HF/VHF Communications, A-SMGCS, Radar, PRM, ADS-B, WAM or Satellite/Links.

Kind regards,

**William Zhao**

Hi Luisa,

I have received your proposal and commenced the Airservices assessment, which takes approximately 6 weeks for completion.

If you have any questions, please contact the Airport Developments team and quote assessment code: NSW-MA-611

Please note that all completed Airservices assessments are also forwarded to CASA.

Regards,

**William Zhao**
