I hereby declare that I object to the Bowmans Creek Wind Farm proposal ID no.SSD 10315

SUBURB: MCCULLYS GAP

REASON FOR OBJECTION:

I am very concerned about the constant noise generated by the massive wind turbines will be intolerable to us.

We bought this small acreage and built our home at McCullys Gap so we could have quietness and listen to the birds singing.

All this will be gone if you proceed to construct the wind farm here. We are deeply worried about probable disturbed sleep and other medical problems.

The value of our property will decrease massively thus preventing us from moving to another area as we have been told at least 10 turbines will clearly be visible to our land.

We are also concerned that there will be a lot of noise during construction six days per week for several years.

We are concerned about possible bushfire generated during construction, or during failure of the Wind Turbines as have occurred elsewhere. We only have one road with one direction on which to try and escape a fire.

We object to possible TV and Telecommunications interference that maybe caused by the turbines
