**Subject:** 2021-196 Notice of Exhibition – Bowmans Creek Wind Farm (SSD-10315)

Good Afternoon,

**TransGrid Reference Number: 2021-196**

**Notice of Exhibition – Bowmans Creek Wind Farm (SSD-10315)**

Please see TransGrid response to SSD– 10315 below:

TransGrid request that the proponent:

1. Provide shapefiles of the project so TransGrid are able to confirm that TransGrid's easement is being avoided and appropriate setbacks and Asset Protection Zone are in place;
2. Liaise with TransGrid when finalising the design of proposed substation/s to ensure the substation/s are constructed as per TransGrid's standards (if the substation is proposed to be transferred to TransGrid);
3. Provide Shapefiles of proposed connection between the substation and TransGrid's Substation;
4. The proponent is to continue liaising with TransGrid to satisfy clause 5.3.4 of the National Electricity Rules and determine the terms of ownership, maintenance and operation of the new substation/s.
5. This Project isn't a customer project as yet.
6. The customer will need to continue to engage with TransGrid, via executing a Connection Processes Agreement to finalise the connection to the TransGrid's network.

Regards

Michael
