Re; Modification to CBD and South east Light rail project CBD and South East Light Rail Project

Further to our previous submissions our members oppose any further loss of trees in Centennial parklands and loss of loss of land in these parklands.

We totally oppose the proposed relocation of the Royal Randwick Racecourse Tramway stop.

It is totally illogical and stupid to relocate this stop and then have patrons attending Royal Randwick to cross Alison rd at a pedestrian crossing.

If Royal randwick racecourse do not want the light rail stop on their side of Alison road then remove this stop altogether.

We are amazed at the complete folly of this proposed relocation.

Regards will

Will Mrongovius
