To Whom it May Concern...

This is yet another letter I have written to once again object to Willow Grove first to being demolished, and now being removed from Phillip Street Parramatta, and replace it with a replica next to Parramatta Goal. What an insane, stupid and ridiculous proposal.

What are you all thinking, just proves, no brains at all.

Am including my letter that I sent to Rob Stokes, stating my thoughts on it all to save rewriting it all once again, so please read it .

Mr Stokes also won't listen, just like Geoff Lee & Gladys Berejiklian. Mr. Stokes of course could not answer my letter but a Annette Pitman (Head of Create Infrastructure) replied outlining where Willow Grove would be relocated and then it was all about the new Powerhouse Museum at Parramatta, another stupid idea, flood prone area, have so many photo's of flooding nearly reaching the top of archway Lennox Bridge, another no brains at all decision.

Listen to the people and all their objections.

I also attended the Protest March for Save Willow Grove on 17th November 2020.

Parramatta will have no heritage at all, as I have said before Government etc only think of the \$\$\$\$\$\$\$\$\$\$\$\$\$\$. Parramatta is now an Ugly High Rise City.

PLEASE PLEASE SAVE WILLOW GROVE, and leave it where it belongs in Phillip Street Parramatta. A replica is not good enough, it has to be the original building in it original place where it was built 140 years ago.

Regards,
Aileen Goodwin

Message

I am writing to show how angry & upset I am about what the Government has planned for Willow Grove & The St. George's Terraces, to be demolished to make way for the new Powerhouse Museum to be built in Parramatta. I was born in Parramatta at Aloha (also known as Willow Grove) 72 years ago, (my brother also 69 years ago). I had lived in Parramatta until I was married in 1970, then moved to Penrith area, which is where I am still today, but Parramatta will always be so special for me, although what is going on to make way for the Light Rail & Powerhouse Museum, just demolishing anything in their path, so many heritage buildings etc (just look what happened to the Royal Oak Hotel, now gone forever, and only a memory) Parramatta is becoming an ugly high rise City. There will be nothing left in Parramatta for future generations to enjoy. I'm surprised the Town Hall is still standing, well for the moment. Where the Government want to put the new Powerhouse Museum is definitely the wrong decision for so many reasons, And have to say don't even like the design, and there is a much better solution for it to go, the Female Factory Precinct area, a much better choice, and why can't Gladys & Geoff see this, oh that's right they only think of the \$\$\$\$\$\$\$\$\$\$, don't care about what Parramatta has to offer with it's history and most important, it's what the people want, whether they live in Parramatta or not, so why aren't they listening, I am just so so angry. I have my birth certificate with Aloha Hospital Parramatta on it also.

My Mother was also born in Parramatta at Inchneuk Private Hospital, George Street (but of course now gone) in 1924, would never ever live anywhere else, until she had to go into aged care in 2016, it was always her beloved Parramatta, was an avid Eels Supporter, was terribly upset in 2018 three months before her death, when I showed her photo's of what was happening to Parramatta and especially with Willow Grove and St George's Terraces to be demolished by this government. She was devastated with the decision.

So I am APPEALING and BEGGING for this Government to think about what they are doing and to PLEASE make the right decision in regards to Willow Grove and the St George's Terraces, whenever I walk past Willow Grove I stand there admiring how beautiful the building, grounds and even the front fence and gate are, something you just don't see being built anymore, so much history and stories AND most important, I was born in this special house. It definitely should not be demolished but should stay where it is.

SO PLEASE Mr Rob Stokes DO THE RIGHT THING in your decision AND SAVE THIS BEAUTIFUL BUILDING WHICH HAS SO MUCH HISTORY. Willow Grove should stay where it is, there are so many options to keep it for generations to come. Once gone we can never bring it back, too many things are just being demolished with no thought at all, always the \$\$\$\$\$\$ win and stupid wrong decisions are made and NOBODY listens to the people of this country, the voters, well I know who I won't be voting for in the next election, am so disappointed with this government.

I would like a response

Yes
