Submission

Your Comments;

I'm not support the Project because will be very bad for our health.

No more fresh air - will be smelling the chlorine, noise, smoking from the cars, from the truck.

All this will be bad for our environmental effect our life style, our home during construction will be a lot of dust, noise and after construction too.

The electricity substation they will built outside of Lawson's windows will be very noise and dangerous.

Please take in consideration you should think about human health and rights.
and environmental.
