Your Comments;

I came to live in [REDACTED] and it's been my only HOME ever since. The place where I was able to restart my shattered life and find some peace of mind. I am very grateful to be able to live in such wonderful neighbourhood.

Sydney Grammar School sports activities have never created any problems for me and my neighbours at [REDACTED] Larsson St. [REDACTED]

Since I've learnt of the project - WAIGALL SPORTS COMPLEX - and had a look at the building site plans, I've become increasingly concerned and worried of a huge, negative and ongoing impact on my lifestyle, my health and wellbeing.

My windows are facing the building site/future complex directly within approx 5m distance. Now I get a couple of hours of sunlight in the morning, but during/after the construction the sunlight will be completely blocked and the future landscaping will increase a darkness in my apartment with electricity usage/bills go up for lighting/heating.

It will be an ongoing nightmare because of the noise, dust and so on during the construction and after.

The service road, a future car park, a drop off point, pool pumps, exhaust from pools, the ELECTRIC substation will be right opposite my windows, which will definitely create huge noise and air pollution. Page 2 of 3

I strongly object to the chosen building site as I am very concerned about the effects on my health and wellbeing in foreseeable future. This is to close →

to our building and our wing in particular.
According to DA plan there is an OPTION 4.
It is in the far corner of the playing field
and away from residences.

So the negative effect and disruption to our
lives will be less significant.

Please consider Option 4 !!!
