Your Comments:

[REDACTED] has explained the high sports building that Sydney Grammar wants to build on the tennis courts outside our house.

I am very sad that teachers and principals at the school can't think about us and how this might even effect our brains. I know my brain is still growing. I know the shock of blasting and drilling right next to us can make me frightened. And it will go on and on every day so I won't have relief. How will I do my homework? How will be hang our washing on the lines in dust noise and when the ground shakes under our feet? How will our washing dry when there is little light and sun? I have seen the drawings. There will be a road with street lights just near our house. The trucks will make noises from early morning and that will wake me up. Not sleeping properly can effect my health, my growth and my brain. I am afraid to be too tired at school. This is not a small thing you want to do without thinking about people who don't have a choice to pack up and live somewhere else.

How will my [REDACTED] encourage me [REDACTED] if she is also disturbed and upset, not sleeping properly, by the building.

The consultants told us we will be able to swim in the new pool. It seems this is not possible. Why did they tell us things to make it all sound okay? Anyway the pool chemicals will be pumped into the air. Another health problem for us on a windy day it will be even worse. I enjoy our trees and birds. Surely the dust and noise and cutting down trees will break up their homes and life also. This is not fair to our wild life.

I am officially objecting for many reasons that make building this big complex, on the tennis courts, →

just outside our house, a very selfish proposal.
The school should have their complex at another
place. I have looked and seen there is plenty place
where no people and homes will be damaged. This
is my peaceful home for my whole life of 12 years.
It should continue to be my peaceful ~~for~~ happy home.
