Re: Cowal Gold Mine extension Modification DA 14/98 MOD 11.

I am a Farmer and large property holder in the area and a Director of several charitable organisations in the Condobolin district. As an Officer of the Central West Family Support Group Inc, and a recipient of a small donation from the Lake Cowal Partnering Program, I have attached my completed "Political Donations Disclosure Statement."

I support the planned extension to the Lake Cowal Gold Mine. As this extension will not change the area of the existing lease, nor the mining method, nor the intensity of annual production, nor the water use, nor impact further on the surrounding environmental area and simply extends the mines life by 5 years, I have nothing to object to. I can only see good outcomes as a result of this modification and therefore support it unconditionally.

18th October 2013.
