I, Suzanne Green of "Fairfield" Wellington 2820, wish to lodge my objection to the proposal to construct up to 40 wind turbines in the Bodangora area approximately 20 klms from Wellington.

My objection to this proposal is on the basis of the following points:

1. The lack of transparency & community consultation, increased by the confidentiality clauses in the host farms contracts.
2. Devaluation of property due to the visual pollution of rural landscapes by structures unsympathetic to the countryside aesthetic.
3. Potential health risks from audible noise and infrasound.

I therefore petition the Department of Planning & Infrastructure to disallow this proposal and anticipate your Departments favourable consideration of this submission.

Yours Faithfully,
