

Phillipa Duncan
Team Leader
Resource Assessments
Department of Planning & Environment
GPO Box 39 SYDNEY NSW 2001

Dear Ms Duncan

Bodangora Wind Farm Section 75W Modification 2 Project

I refer to your email of 11 October 2016 inviting the NSW Department of Industry, Division of Resources & Energy (the Division) to provide comments on the Infigen Energy (the Proponent) Bodangora Wind Farm (the Project) Environmental Assessment (EA).

The Division has reviewed the proposal as described in a letter from Bodangora Wind Farm Pty Ltd to DPE dated 5 October 2016 for a Section 75W Modification Application 2 - Bodangora Wind Farm and provides the following comments within its area of responsibility.

The Division has no concerns regarding the proposed amendments to electrical infrastructure and access tracks as they should have no impact on mineral or extractive resources.

However, the proponent should consult with the company that has lodged Exploration Licence Application (ELA) No. 5342 and continue to liaise with other relevant Exploration Licence holders prior to, during and subsequent to the construction phase to ensure that no potentially prospective mineralised areas will be compromised by the development.

The contact details (for the titles agents) that GSNSW has on record for ELA 5342 are:

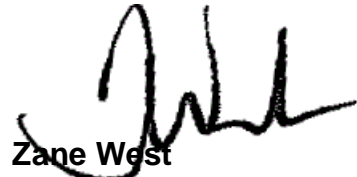

Address: GPO BOX 1661 BRISBANE QLD 4000
Name: EDEN HODSON
Phone: (07) 3221 2249
Email: eden@utmglobal.com.au

The Division's Industry Investment and Export Support branch and the Renewable Energy Advocate have been working with Infigen Energy to facilitate development of the Bodangora Wind Farm since early 2014 and will continue to support the project as it progresses to construction and operation.

The Division is satisfied that the project will have no impact on mineral resources in the area and supports the proposed modification.

Should you have any enquires regarding this matter please contact Steve Cozens, Senior Project Officer, Royalty & Advisory Services on 9842 8573.

Yours sincerely
