Have included some photographs + videos
of proposed site views.

SUBMISSION FOR OBJECTION

Page 1 of 2

I object for the following reasons

- ① I am very concerned about the level of land clearing when the erosion that (will) come from this ends up in the Peel River. The Booralong frog does not breed unless he has clear running water over a clean stony river bed. 8kms of the Peel River runs thru our property, its health is of great concern to me. The Platypus families, same could be destroyed.
- ② I will have full view of 75 turbines from my bedroom window 150 aviation lights blinking all night.
- ③ I have concerns regarding water hydrology at the head of Peel being disturbed + changed by massive concrete foundations.
- ④ Will these turbines create a false high on top of the mountain + change the way the cloud + misty rain from the coast rolls over + back with such beauty.
- ⑤ Will our cattle - our main income become unsettled and not thrive as they do now because of noise + vibration.
- ⑥ Will the sight + constant sound + vibration make myself or family ill.
- ⑦ This project has divided a community that have worked together in harmony for years destroying something precious to us all.
- ⑧ My dream of our sons + grandsons enjoying this beautiful property with its glorious views ~~and~~ loving it and working it, improving it will be destroyed by fools that tell us they are green but in reality everything but; money ^{seems to be} only agenda.

(10) Poor community consultation, appointment made by wind & energy partners to take photo's from my property for visual assessment, date & time confirmed by phone & email on 17th June 2020 11 am no show, very unprofessional no phone calls no apologies took time off work to be there.

This photo montage was to show me what I have to live with for the 25-30 yrs. iff the project goes ahead they obviously realise we will have full view of all 70 wind turbines.

Video + Photos attached of my view affected.
