TO WHOM IT MAY CONCERN

RE: HILLS OF GOLD WIND FARM APPLICATION NO. SSD 9679

- I am attaching my submission to the above mentioned development application
 - I hereby declare that I object to the Hills of Gold Wind Farm proposal ID no. SSD 9679
 - I would like my personal details withheld
 - I have not made any reportable political donations in the previous 2 years
- 

OBJECTION

To whom it may concern

We are sending you this letter, in hope that you will seriously consider what we and our community have to say with regards to the proposed Windmill Construction at Hanging Rock.

This project has course destroyed our community from the day it was proposed.

Yes, they that is a hash statement but true!!

My husband's family has been land holders in this district for 6 generations. We have built our Farming Business, built our homes and raised our families through the good time and the bad times in this beautiful place and it is with a heavy heart we have never encounter such a dreadful time as we are at the moment because of your proposal.

As you are aware we are not a large community but we have always been a strong one. There are families here old and new that love this place. When the chips where down the community always came to your aid. Thanks to you proposal that has been destroyed. There is now a division with in our community that we feel will never be able to heal.

What gives you the right to do that to us?

Shame on you!!!!

Instead of going on any further about the destruction of our home and our community we would like to make a suggestion.

IF, this projects goes ahead, why could you not pool all the funds that are going to be paid to the very few landowner who are going to benefit from this project and distribute it to all the land owners and business owners that it will effect? This will give them and additional value , (that they would lose because of your proposal) to the landholding by having and additional income (Rent) on to their place, which could be a house in town or a property depending on the amount of land.

This way everyone would benefit from your terrible proposal. (Ideally you don't erect the dam things at all)
