SUBURB:

REASON FOR OBJECTION:

The devastating impact on the environment
by removing so much of the forest, not just for
the actual turbines but also for the machinery
required to complete the project. Nundle is one
of my spiritual homes + a sanctuary for so
many people to escape. One of the reasons is
the incredible night sky which will be destroyed
by light pollution. The animals will have their
homes ruined. The size of these turbines is
unfathomable to me. The ranges are an asset
to our country + the incredible view will become
an eyesore. All of this for turbines that only
last 25 years. Then what? Ruining land
thats been for hundreds of thousands of
years. These hills should be preserved. They
bring tourists here putting money into the local
community. Not to mention the constant noise
of the turbines. Unnecessarily destroying that
much natural land is criminal.
