REASON FOR OBJECTION:

As a touring musician I have seen a lot of Australia over the last forty years.

The Hills that surround the beautiful town of Nundle are distinct, unique and of vital significance for a wide range of obvious reasons. ~~Such as~~ Such as - the impact on clearing native vegetation and endangered species habitat that is 'distinct' and restricted to this area.

The impact of soil erosion and the impact of this upon the vital waterways that - in turn - impacts another delicate system of natural ecosystems that many other vital industries in the area rely upon.

I cannot stress the urgency and importance of the need to step in and protect this precious region.

Yours sincerely -
