RE: HILLS OF GOLD WIND FARM APPLICATION NO. SSD9679

- I am attaching my submission to the above mentioned development application
- I hereby declare that I support the Hills of Gold Wind Farm proposal ID SSD9679
- I would like my personal details withheld
- I have not made any reportable political donations in the previous 2 years

SUBMISSION FOR SUPPORT

We hereby declare that we support the Hills of Gold Wind Farm proposal ID SSD9679 for the following reasons:

- ✦ Wind energy is a natural clean source of energy that needs to be developed in order to replace power plants that rely on the combustion of fossil fuels.
- ✦ It is a local domestic source of energy, readily available that needs to be utilized. Wind energy is sustainable and as it doesn't pollute as power plants that rely on coal or natural gas does, it will lower carbon emissions.
- ✦ The construction of a Wind Farm will create ongoing jobs for locals in the area, with the building of the infrastructure needed for roads to bring in the turbines, continued maintenance and repairs. This will further benefit the town and local area.
- ✦ The land the wind turbines will be built on, will retain it's usage and purpose for the landowners. So in the ~~the~~ long term they will not be disadvantaged.
- ✦ Once established the Wind Farm will be beneficial to all as Wind energy is one of the lowest priced sources of renewable energy. Reduced energy bills will improve our everyday costs of living.
- ✦ The town and local area would also greatly benefit from the construction of a Wind Farm, through tourism. The interest and curiosity of others would inject much needed money into the community.
