**I hereby declare that I object to the Hills of Gold Wind farm proposal ID SSD 9679**

Nundle survives on tourism due to its history of gold and antimony mining. The age of many of the town's buildings i.e. the The Peel Hotel, The Primitive Church, Museum Courthouse are a readily identifiable link to Nundle's historic past.

Tourists escape to Nundle from the noisy busy everyday life of the cities.

The slow restful peaceful nature of the town encourages people (visitors) to exit their vehicles and walk the town and observe what cannot be seen elsewhere in the country.

It has been suggested that the historic town of Nundle will benefit from the wind turbine farm through large flocks of tourists coming to see the wind farm, As the wind turbines are so large on the edge of the encampment they will be visible from such a long distance that tourists would not have to go anywhere near Nundle for observation. Visitors do not have to drive close to see a turbine.

Long distance tourism is not going to be of benefit to the town of Nundle. Nundle is a town which survives on tourism.

We have purchased land in Nundle to escape to the natural beauty of the area not to witness its destruction for the sake of financial or political gain.

**I object** to the Wind Turbine Farm
