I moved here for work roughly 2 years ago, I seen Nundle as a beautiful place and I still do, however the potential within the town is degrading. The jobs that are not available for locals is appauling, the houses are empty due to lack of work. I am 24 years old and I believe I am one of maybe 4 in my age within Nundle, thats a low number to keep our little town alive. I see the wind farm as a bonus for Nundle, the jobs it will create, the attraction itself will be beautiful. Our little town may expand in the sense of myself starting a family, but I dont want to start a family in a town where there isnt generations to keep the small school open. I believe if the wind farm is to be approved we can create the jobs, we can fill the empty houses and we can keep the town alive & beautiful. I will back the windfarm if we can keep the town alive and give it the potential it deserves, the town itself has alot of memories and I would love to continue to make some more here. Within the current pandemic this would keep alot of people busy and making the dollar they deserve. Bringing tourists to our town, bringing jobs and bringing more people would be a massive bonus not just for myself, but the whole of Nundle community.
