

Dear Sir Madam

I write in support of this
wind farm with SSD-9679.

The developer and Jamie have
consulted us over the past few
years and provided up to date
information.

We believe the project will bring
jobs and attract a new industry
in Nundle. In the past we have
had active community sports, such as
2 football teams & a 90 strong
tennis club & cricket team,
active bowling group and ladies
meetings. The school has been
suffering from reduced ~~an~~ students.
The new workforce, spending
landowners benefiting directly will
add directly and bring back
some of these groups.

We have seen the photographs
and are comfortable with changes
to the landscape, which are
distant to Nundle. Furthermore
Nundle's tourism mostly based on
local touring & gold mining attractions
will benefit ~~them~~ from interest in
the wind farm. Other towns with
wind farms have seen this interest
and eco-tourism.
