

Objection

I live in Nundle for at least six months of the year and I am a registered voter in Nundle.

When I am not in Nundle I live in the city. The city is noisy and busy and that is ok because I go there to be busy.

When I go to Nundle I go to get away from the city to enjoy the peace and quiet. I love the birds, trees and flowers. I see many things that are beautiful. I can hear the birds chirping every morning and I can hear the trees blowing in the wind. All this is good for my health and I really love it.

I am sad that the developers want to build a Windfarm here in Nundle. This is not the right place for them. The mountain I look at is so majestic. I will see many of them when I stay here and will see also the red lights at night time. When I live in the city I can see red lights and I don't want to see them when I am in the country.

I want to keep spending my time here and if these wind farm come to Nundle then I will not come back here again. This will make me very sad because at my age I don't want to move away from Nundle.

Thank you for your time in hearing my thoughts about this project.
