**RE: Hills of Gold Wind Farm Application NO. SSD 9679**

- I am attaching my submission to the above mentioned development application.
- I hereby declare that I object to the Hills of Gold Wind Farm proposal ID no. SSD 9679
- I would like my personal details withheld.
- I have not made any reportable political donations in the previous 2 years.

Signed,

Neryl Purcell

**Reasons for objection:**

1. Lack of information and consultation of planned wind farm development to residents of property owners in the Timor and surrounding areas.
2. Insufficient time given to raise any objections. (COVID restrictions which prevent personal contact with landholders or arrange meetings)
3. Issues concerning bio-security not addressed in report. (People & vehicles entering private property.)
4. Lost of property value. (Valuer's report?)
5. Transport of oversized and heavy equipment via Crawney Road.
6. Impact on Isis River.
7. From my property the view is to the East(sunrise) to the mountains.  
This is where the wind farm development will be evident of a morning.  
Late afternoon when the sun sets, the sun will shine directly on the turbines.  
At night, we will see the red lights flashing as a pilot warning. Visual impact!
8. The reports states the benefits to the residents of "Nundle", but not of the disadvantages to the people of Timor and district.
9. Wind farms are not a tourist attraction.

10. Bushfire management (what safety measures & financial support for fireworkers)

11. Effect on rainfall & climate change in Timor area.
