Subject: Objection to Ratch Collector Wind Farm Modification Application

Dear Neville Osborne,

The Collector Wind Farm does not have permission of the Allodial Title holders to proceed at all let alone modify to larger more impactful turbine blades.

The Pear Land Council are not an approving body representing the Allodial Title holders. As the resident Elder of the Allodial Title holders, I object to the development and

Allodial Title cannot be extinguished and burdens 'Radical Title' rendering it "void ab initio". The Commonwealth/Crown has 'Radical Title'. A valid record of transfer is required for "Allodial Title" to change hands. No such record is in existence held by the Crown/Commonwealth, or any state or territory in Australia. Word of un-transferred allodial title has now spread throughout the continent, and as such, aware people now regard crown radical title as a mere fictitious image of the truth.

There is also a conflict of interest in the Chair of the Planning Assessment Commission "Approving" the Collector Wind Farm development. The PAC is not an approving body and as the PAC members are paid by the NSW Government, they are compromised if they do approve it..

If there is to be another PAC hearing on the matter of the Ratch Collector Wind Farm and/or an application to modify, please list me to provide a Welcome to Country and address the PAC Hearing?

Regards,

Shane Mortimer
