Objection to Ratch Modification Proposal for Proposed Collector Windfarm. Your ref: Application 10_0156.

Dear Mr Young,

I hereby object to the Ratch Modification Proposal lodged with you on 20 September 2015.

The objections, in summary, are as follows

1. Inadequate time for consideration of the Modification Proposal.

2. Inadequate Community Consultation – we are opposite where the turbines would be located, yet we are never contacted or consulted other than rare, glossy brochures. The “Community Forum” is anything but: wind farm-chosen individuals who do not represent anyone opposing the wind farm.

3. Misleading and false information from Ratch – I emailed to ask for clarification on the new size of turbines – the reply was no further diagram

4 Noise concerns - wind turbine blades will be even larger – this is a massive output difference, yet it is being passed off as nothing by the wind farm whenever I try to enquire or ask for clarification.

The proposed development is opposed by over 80% of the community, yet this fact is continually ignored by the wind farm. This wind farm is virtually being built on top of a town of many objecting families.

Kind regards,

Barbara Bryan
