### **Objection to Ratch Modification Proposal for Proposed Collector Windfarm. Your ref: Application 10\_0156.**

Dear Mr Young,

I hereby object to the Ratch Modification Proposal lodged with you on 20 September 2015.

My objections are:

**It will destroy our environment – flora and fauna - and our town and its surrounding community. Many families are leaving if the wind farm goes ahead, including my own. Many are selling up already.**

**Our town is not a factory – it is our home.**

**Nobody here wants the wind farm. We are Australian citizens – we have the right to live in our own homes without them being turned into a factory site.**

**Turbines are a big fire hazard overseas and here in Australia – we are told to avoid fire hazards and now someone wants to install many of them on our precious hills and act like this is fine!**

The proposed development is opposed by over 80% of the town – the town do not want this wind farm.

Kind regards,

Samantha Bryan
