Subject: Bluestone Modification

Dear Brendon

I am aware that the closing date for submissions for the Bluestone Modification at Captain Cook Drive for units above the retail section closed on Tuesday but if possible I would like to add the fact that they are not meeting the PAC requirement of a shuttle to Woollooware Station as required. The public bus service 985 goes to Cronulla or Caringbah stations. There is a letter written to Sam Haddad Director of Planning and Infrastructure (attention Karen Jones) on 13 February 2013 by Gy Wallace of Cronulla Sutherland Leagues Club confirming that Woollooware Station is on the Route. I will try to attach a copy. I just found this when I was looking at other paperwork.

I hope this can be added to my submission.

Regards
