**Department of Planning**

**Attn: Katelyn Symington**

Dear Katelyn,

I wish to object to the proposed waste facility coming to Gunnedah (SSD-8530563). My particular concerns are the proximity of the facility to homes and an agricultural plot purchased by the local high school, used by students for teaching purposes. The processing and disposal of dangerous waste in our area and its potential for environmental leeching and afflicting health issues on our community is alarming.
