18 February 2021

Dear Javier,

Stubbo Solar Farm (SSD-10452)

Thank you for your correspondence dated 25 January 2021, regarding the abovementioned matter.

I advise that ARTC have reviewed Appendix H Traffic and Transport Assessment Report as provided for the abovementioned SEAR's request. Subsequently ARTC advises access over ARTC railway lines (level crossings) for either the construction or operational phases of the site will need specific requirements on existing Public roads with regards to vehicles that are not currently gazetted to use such roads and related level crossing. Requirements would be based on a specific case basis. For private access level crossings a review in terms of the current allowable usage and related tenure aspects will also need to be developed on a case by case basis and approved by ARTC.

Should you have any further enquiries with regard to this matter please do not hesitate to contact Sarah Lawrence, Property Officer on SLawrence@ARTC.com.au or 02 4941 9602.

Yours sincerely

pp 

Monica Cox
