Attention: Toby Philp

Dear Sir / Madam,

SUBJECT: RESPONSE TO MODIFICATION (1) TO THE GULLEN RANGE WIND FARM

Reference is made to your letter of 31st March 2014 seeking comments on the modification proposal to the Gullen Range Wind Farm.

NSW Trade & Investment, Crown Lands comments on this proposal are as follows:

- Overall, the change to turbine locations from 'indicative' approved to 'Final Design' has resulted in no direct impact on any Crown roads in the vicinity; however, one turbine (GUR_01) has been constructed less than 15 metres from a Crown road. At this location, the Crown road directly south of the turbine was included in appropriate approvals and conditions of consent but when considering the proximity of the turbine, blade orientation, and overhang the Crown road is likely impacted and will need to be closed.

It is noted that Turbine GUR_07 was moved toward Sugarloaf Trig Reserve which resulted in direct impacts on the Reserve. As this impact was part of an acknowledged negotiation between the proponent and NSW Land and Property Information, this Office is satisfied that any impacts on the Trig Reserve have been appropriately mitigated by the proponent during the construction phase.

If you have any queries regarding the aforementioned or this Office can be of any further assistance, please do not hesitate to call John Flarrey, Group Leader, Goulburn Office on (02) 4824-3714 or Mobile 0427 108 717.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Grant Marsden', written over a circular stamp or mark.
