

Dear Sir/ Madam,

I have been trying to submit my comments for the Moore park Stadium and have found it impossible to log into your website, firstly the password will not except normal passwords that you can remember and finally when I came across one it would except and validated it I still could not log in, it almost seems like you don't want the public to be able to access this site.

Unfortunately the one day notice I had to submit my views has now passed and I contacted Sydney city council to see if they could help and they have given me your email address.

I would appreciate if you could log my views and comments to this so I don't have to take to social media.

My issue is on the application relating to traffic and parking, noise management.

As a local resident the traffic along South Dowling, Lachlan, Bourke and McEvoy streets is already congested with traffic in peak hours and Saturdays at a standstill, this is only going to get worst with the opening of the Westconnect exit at Sydney park. There is no way our local streets can cope with this extra traffic and I have seen no plan on how the Moore park trust is planning to avoid making this the most congested area in NSW.

So I would like to submit my objection to stage 2 until I see a plan of discouraging more traffic into the local streets or using our parkland for parking and removal of any of our beautiful local trees.

Kind regards
Cindy Kerr
