Dear Ms. Murray

Cadia East Gold / Copper Project Modification (MP06_0295-Mod-14)

Dams Safety NSW wishes to thank NSW Department of Planning, Industry and Environment for its invitation to comment on the application to modify the development consent for the Cadia East Gold/Copper Project Mod 14 – Increased Processing Rate.

The proposed works have been noted and Dams Safety NSW has no objections against the proposed works provided that:

- Dams Safety NSW should be notified regarding any future modifications to declared dams (Cadia (Northern) Tailings Dam, Cadia Southern Tailings Storage Facility, Cadiangullong Dam, Upper Rodds Creek Dam and Cadia North Waste Dump Detention).

It is now a requirement that the owner of a declared dam must notify Dams Safety NSW in writing of the proposed change, before any significant change is made to the configuration of the dam that may affect the safety of the dam, in accordance with Clause 21 of the Dams Safety Regulation 2019.

Your continuing cooperation is appreciated. If there are any queries in regard to the above please do not hesitate to contact Engin Hizbas, Dams Safety Engineer on 02 9842 8082, mobile 0432 611 205, or e-mail engin.hizbas@damsafety.nsw.gov.au

Yours faithfully,

Heather Middleton
Mining Impacts Manager DSNSW
