To Director of Planning Services.

I am writing to voice my strong
oppositing NOT to have this Hazadous Waste
incerator, just down the road from my home.

- 1). Any Medical waste that has to be incinerated
has the potential to cause medical problems.
- 2) Cytotoxic waste: is deadly to humans.
- 3) My grand-children visit regularly & I don't
want them exposed to potentially hazardous
waste, from the fumes ommitted from this
incinerator.

Again I voice my strong disapproval against
this incinerator

Regards.
