I refer to the proposed hazardous waste incinerator at 129 Mitchell Avenue Kurri Kurri and wish to lodge my objection in the most strongest terms

This incinerator is far too close to residences and there are no guarantees in ensuring public safety with such a facility. The recent closure of the Hydro facility has finally given this area some clean air and I don't want to jeopardise that.

I am reminded of the controversy surrounding the original application for the current facility and the final approval for a DROSS plant without the hazardous waste inclusion.

This proposal should not be permitted to proceed.

Yours Sincerely
