18th October 2016

Dear Sirs,

I am writing to complain about the proposed Kussi Kussi Hazardous Waste Incinerator.

Over the years we have had poor air quality in this area, due to industries in this area and the fall out of dust and soot.

I have to cover my car windscreen every night, as it sits in the carport, or I can't see out of the windscreen the next day, due to dust and soot coating the windscreen and windows.

The proposed Waste Incinerator is far too close to residences as it is, let alone extensions for a further Waste Incinerator, and it should be located in a site far from residences where people are at risk.

I would be grateful if consideration for another site far removed from a built up area would

be made, and people's health is not jeopardised in the process.

Yours faithfully

Mrs. S. Reddie
