To the Director Industry Assessments.

I reject the waste Incinerator being built at Kuri Kuri.

I don't live far from where the Incinerator is planned.

No one knows how this will effect the people in the area.

Let Garbo Simonion build it in his back yard, he is only in it for the money. (24 hours 7 days a week is unbelievable even if you could prove it would be safe.

We objected to the Aluminium ~~being~~ being built there Kuri Kuri people rejected the idea (that was Garbo Simonion again).

Kuri Kuri people said if they want it so bad to build it in their own backyard.

Then the dross came and we were the fall guys again. Once it is erected even if they find it to cause problems, They won't fix the problem.

Garbo Simonion doesn't care about the people, he is only interested in the money. I am strongly against this Waste Incinerator.

P.T.O

who can prove the area has been cleared up. I wouldn't trust anyone. I'm sorry about my writing as I have Tennosovitis and find it hard to write very lengthy letters.

Yours Faithfully
Freda. Witherpoore

P.S. Family comes first with me and I always want them to be safe. Even if the land was given to me I wouldn't build in that area.
