West Culburra Concept Proposal (App. No. SSD 3846) – Public Submission

When making this submission, I declare that I have / have not made a reportable political donation in the previous two years. 

I support the **West Culburra Concept Proposal (App. No. SSD 3846)** for the following reasons:

I support this development because I have lived in this town for 22 years and had a holiday home for 4 years previously.

I have seen the impossible position our small business suffer & employees and the population drop down. We need a population of 10,000 & plus 3,000 to keep business healthy.

I have rental property of 2 duplexes for 20 years and only not occupied for a total of 6 weeks. There needs to be more properties.

I have had a elderly parent live here for 18 years and seen rent drop and house size to big for her. Thank god for IPV.

I have attended meetings about this for years and seen town support levels of I think to be 1900 and the last meeting there would have been 400 at it and only 14 ~~approx~~ approved it.

I support his plan to develop west Kulluss because of the following:-

- 1) Support our local small business
 - 2) It meets a better and safer traffic flow into town
 - 3) It's a well plan water flow from the development
 - 4) It well developed for ~~the~~ lands
 - 5) It has a good size block of land 5000 sq meters for 13 bed house and for unit block near the village
 - 6) This plan must be one of the best Ecologically sustainable town development in Australia
 - 7) Australia is 25 million people not 10 million - more houses are required for them
- During these time I have been talking to many about expanding the town and I find people are very selfish as the best development will reduce the house prices.
