West Culburra Concept Proposal (App. No. SSD 3846) – Public Submission

When making this submission, I declare that I have / have not made a reportable political donation in the previous two years.

I support the **West Culburra Concept Proposal (App. No. SSD 3846)** for the following reasons:

- * This development is what the town needs in order to develop economically or even to maintain the present level of business building and other activity will bring short term employment and more people means more business turnover (that is if homes are residential)
- * The development application addresses infrastructure issues not just with playing fields and preserved open spaces. It holiday housing is also understood that communication has taken place with departments of education and health.
- * The development application

considers the existing township
and aims to integrate with ~~the~~
~~the~~ the existing community

*

In achieving the above
the development application
has taken extreme consideration
of the ecologically sensitive
sections of the village.
