West Culburra Concept Proposal (App. No. SSD 3846) – Public Submission

When making this submission, I declare that I have / have not made a reportable political donation in the previous two years.

I support the **West Culburra Concept Proposal (App. No. SSD 3846)** for the following reasons:

system • The development has an excellent Integrated Water Cycle Management which is very important for our oyster industry, our coastal wetlands and also protecting the land from stormwater heading into our waterways.

• I'm particularly impressed with the high level of Ecologically Sustainable Development, rain water tanks, solar panels and higher than normal energy efficiency targets, 7 rather than a 4 or 5 across the state.

• I'm very happy that this development has no impact on Lake Wollumbola except for a very small section, which results in a neutral or beneficial effect.

• I'm also very particularly happy with the proposed foot paths and cycle ways which allows people access between the parts of the development and the existing township.

Yours very sincerely
