RE: OBJECTION TO WEST CULBURRA DEVELOPMENT MIXED USE SUBDIVISION

I refer to the above application and this submission not in support of the West Culburra Development mixed use subdivision.

The development will have a negative impact on the water way, Greenwell Point and the Crookhaven & Shoalhaven River has a well-established aquaculture industry, in the forms of oyster farming and commercial fishing.

I believe this development due to the clearing of land and urban run-off will diminish the water quality of this estuary. This is why I do not support the West Culburra Development mixed use subdivision.
