

Recipient: Director of Social and Other Infrastructure Assessments

Letter: Greetings,

RE: Application No: SSD 7545

I am writing to you regarding the adjacent community of Botanica. You will be aware that the proposed facility has its main entrance facing Main Avenue, which is part of Botanica estate, at Lidcombe, as well as its vehicular entry and exit to the public car park. There are clear obvious concerns around parking, traffic, etc however I want to urgently flag the existing heritage orders covering the site.

Specifically, Main Ave in Botanica is listed as a heritage significant road with NSW Dept. of Environment and Heritage, and was preserved intact when constructing Botanica, including the gatehouse, verges, brickwork around the roads (which are original) and flowerbeds. Constructing driveways into and out of Main Ave and having the main entrance to the proposed facility from Main Ave is totally at odds with the heritage significance of the road and the requirement and previous efforts to conserve it. Further, part of the area of the proposed facility is already subject to an existing masterplan – the Botanica Masterplan – which includes both sides of Main Avenue, including the grass area and brickwork – all the way to the chain wire fence.

We care for our heritage listed street and we urge you to build your vehicular entry and exit to the public car park on either Joseph Street or use your existing one on Weeroona Road, Lidcombe.

Further to our concern for our heritage listed street, we would also like to raise the below concerns that you may not be aware of.

We believe that the proposed changes to main avenue will:

- Increase parking problems, as people will park in Botanica's streets if the public entry to the court and morgue is from Main Avenue.
- Compromise the aesthetics of Main avenue, that is subject to a Heritage listing.
- Increase safety risk to our children and elderly residents within the estate.
- Lastly it will undervalue our homes in Botanica.

P.S We have gathered over 350 signatures from people that object this proposal;

please see our petition:
