Dear Tegan,

State Significant Development - Mount Pleasant Optimisation Project (SSD-10418) – EOTH21-00022

Thank you for your email giving Subsidence Advisory NSW (SA NSW) the opportunity to provide comment on the above proposal.

SA NSW understands that the proposal involves the expansion of an existing approval for open-cut mining for the Mount Pleasant Open cut project. The proposal will allow for the recovery of additional coal resources primarily by the extraction of deeper coal seams within the existing project area.

SA NSW are responsible for both compensating affected landowners and regulating development in areas of NSW that are impacted by mine subsidence caused by underground coal mine activity.

The state significant development is an open cut coal mine operation and as such SA NSW has no comment given that the proposal will not result in mine subsidence.

If you would like more information, please contact Subsidence Advisory NSW on 4908 4300 or subsidedevelopment@customerservice.nsw.gov.au.

Yours sincerely

Kieran Black
