Subject: Objection to Mount Pleasant project (SSD 10418)

Mount Pleasant Optimisation Project Application No SSD10418

We have been advised that our property will be affected by the mine.

If the approval was to be granted we have concerns with

- NOISE (Operate only in daylight hours)
- DUST. (We rely on tank water)
- VIBRATION FROM BLASTING
- VISUAL
- LIGHTING. (As the mine gets closer)
- ROAD TRAFFIC (Passing traffic to & from mine site & maintenance of road)

We would like to be notified if there is to be a public hearing.
