

Landscape contrasts perpetrated by mining are seen here, at two points joined by Castlerock Road.

Cresting at Kyuga road T junction, one sees this sickening sight, ever changing.

Going right on Castlerock Road up to the VP 335 AHD where the long panorama was taken, one sees this gate and trees by the road.

The gate gives northwards down onto old farming property, and overlooks descending ridges to the river valley and beyond, ringed by 3 distant blue mountain ranges. Muswellbrook people hardly know this exists, yet it is still public road, a perfect picnic lookout.
