Planning Assessment

23-2-21

To whom it may concern -

We have no objection to the  
re opening of Wongawilli Mine.

We attended a meeting at Wongawilli  
Community Hall and found the company  
are very conscious of the environment.  
Also they have made every effort  
to keep noise to a minimum.

They are providing safe working places  
for their employees.

As it is an Indian company the  
coal mined will go to India and not  
end up in China which is a plus.

Hoping the mine goes ahead as  
plan
